Dear Mr. Tilley:

RE: ML 31934--Gilsonite

Thank you for submitting a very complete and detailed explanation of your proposed mining operation for lands under State Gilsonite Lease ML 31934. I have reviewed the material which you sent and only ask that you have the Division pre-approve the seed mixture. I see no problems with the proposal but final approval to mine must await review by the State Environmental Coordinating Committee. The committee has until February 10, 1992, to respond to the proposal.

The Division continues to hold your CD No. 2-937174-7 in the amount of \$10,000 in-lieu of a surety bond. This CD satisfies the Divisions bonding requirement for the proposed mine.

I will contact you again before the middle of February for final disposition of this matter. Please notify me as soon as you receive the required permit to mine from Division of Oil, Gas, and Mining.

Sincerely yours,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST
